INNOVATING AGRICULTURE FOR A SUSTAINABLE FUTURE

Green Agritech Farms Pvt. Ltd., based in Bahawalpur– Cholistan, is a diversified agri-business platform committed to advancing sustainable farming, agroforestry, and modern agricultural technologies in Pakistan.

Our vision is to transform agriculture by combining traditional practices with innovation, enabling farmers, communities, and institutions to thrive in arid and semi-arid environments.

CEO'S MESSAGE

"At Green Agritech Farms, our mission is to blend innovation with tradition to build a sustainable future. We aim to empower farmers with modern solutions, resilient crops, and smarter technologies."

TOGETHER WE GROW BETTER

At Green Agritech Farms, we provide integrated services to ensure high-yield, sustainable, and technologically advanced farming operations for our partners and clients. We serve growers, contractors, and corporate farms across Pakistan.

AGROFORESTRY NURSERY

FOCUS

Producing and distributing a variety of plants suitable for agroforestry, environmental conservation, and sustainable farming.

PLANT CATEGORIES

Nitrogen-Fixing Trees: Acacia, Moringa.

Timber Plants: Kikar, Farash, Terminalia (fast-growing hardwood species with survival rate in desert).

Fruit Plants: Falsa, Bairee.

Medicinal Plants: Aloe Vera, Spineless Cactus, Rosemary.

Mr. Ali Akbar, Nursery Incharge
